Our Mission...

Here at Highlands Dental Care and Children's Dental Care we provide the best dental care to our patients. We offer quality and affordability at all times. So what is it that sets us apart from the rest? We are a care first dental practice, changing the lives and smiles of patients everyday!

Dr. Tong's Tip of the Month: *When it comes to dealing with braces and retainers, there should be no chewing gum or forgetting to clean them. The better you take care of your braces and retainers, the better they can do their job and the sooner you can say goodbye to them and hello to a straight new smile!*

May 2009

April was a blast! We had a great time welcoming the spring weather, rain and all, and celebrating the Easter holiday! The children enjoyed the Easter eggs, balloons and special goodie giveaways held at both offices. We also began planning our 2nd Annual Cookout to be held this month! (details on page 4) As we prepare ourselves for a busy summer, our staff continues to strive for excellence, more happy patients and brighter, healthier smiles. Join us this month as we celebrate Mother's Day, welcome new patients and continue to change lives, one smile at a time.

Continuing Education...

April 20-25, representatives from Dr. Tong's offices traveled to Clearwater, Florida to participate in management skills training presented by MGE. Topics included improving efficiency, communication and patient management.

In May, Dr. Tong will visit Boston, MA to participate in two important events related to Orthodontics. May 1-5, Dr. Tong will attend the annual meeting of the American Association of Orthodontists, followed by the Roth Williams International Society of Orthodontists conference on May 6-9. These meetings represent important opportunities for highly qualified orthodontists from all over the country to network, share best-practices and engage in continuing education opportunities.

May 14-15 Dr. Tong and staff will travel to Philadelphia, PA for Dental Assistant training. This meeting is presented by Paragon and it is an opportunity for our staff to expand their current knowledge and skills.

Something to Smile About

May 2009

Its Mommy's Turn Now!

Ms. Olumilua, mother of three has been worried about the dental health of her children, for the past nine years, that's she practically forgot about her own dental needs. For years she suffered from fear, and major cavities, but she continued to ignore her dental health needs. Until one day she came to the realization that the Doctor her children have grown to love might not have been that scary after all.

"My first visit was last year and it immediately came to me. My children love seeing Dr. Tong because he is so gentle and caring. And he makes every visit enjoyable" stated Ms. Olumilua. She values the personal relationship that Dr. Tong and his staff offer to their patients. She loves the fact that you are considered a person and not a medical record. "I totally recommend my friends and family to come see Dr. Tong. He and his staff are amazing."

Just one year ago, Ms. Olumilua came with cavities, and a lot fear. Now Dr. Tong has her "Scare Free" and relaxed in the chair each and every visit.

A Special Gift Just for Mothers!

Patient Spotlight

May 2009

Patients Choose Quality over Convenience

Mr. Anton Joreenadze and his family have been patients at Highlands Dental Care for over two years. He and his family were first introduced to Dr. Tong in 2007, from a parent in his child's day care facility.

The Joreenadze family lives in McLean Virginia, and despite the long distance they are dedicated patients that value the quality of Dr. Tong and his staff. "Highlands Dental Care is more than just a dentist office. Dr. Tong and his staff are like family. They are absolutely amazing, and the environment is so soothing. The trip is long, but the travel is definitely worth it" stated Mr. Joreenadze.

Mr. Joreenadze and his family visit Highlands Dental Care quite frequently for their monthly check-ups and exams. And being as though they live in an area where finding a Dentist is easy, and very convenient for their family, they still choose Dr. Tong, and highly recommend others to visit. "When you are receiving high quality treatment in a State-of-the-Art facility, there is no need to research any other dental office for my family. With Dr. Tong and his staff, I already know what to expect, each and every visit. Complete satisfaction and top notch performance!" said Mrs. Joreenadze.

Here at Highlands Dental Care we have patients that value our customer service. Many patients travel near and far just to receive the quality assurance that Dr. Tong and his amazing staff provides.

"We hope that Highlands Dental Care opens an office in Washington, D.C. one day. That would be a delightful treat. But until then we will continue making our trip to Clarksburg to visit Dr. Tong and his staff."

– Mr. and Mrs. Joreenadze
